Synchronous ECSCW 2020

- To promote direct exchange of ideas among the conference participants across different time zones, we are planning a set of live sessions during the conference from 15:00-19:30 (German time, UTC+02:00).

- The planned live social events take place between 19:00 and 20:00 (Monday) and 19:30 and 20:30 (Tuesday) (German time, UTC+02:00)

- Following the ECSCW tradition, this live program will be "single track." All of the live synchronous sessions will take place via Zoom.

- All Zoom links and passwords will be emailed to registered participants before the conference.

- We will continue to explore other online tools for promoting interaction and communication among the presenters and participants, including informal and serendipitous encounters.

Saturday, June 13 (Pre-Conference, German time, UTC+02:00)

15.30 - 18.30	**Workshop** Registration	Zoom Hall
	Technical Support	
	Details about the program of the individual virtual workshop are coming soon.	

Sunday, June 14 (Pre-Conference, German time, UTC+02:00)

19:25 – 19:40	**Closing & Handoff to ECSCW 2021 Conference Chairs**	Zoom Plenary

Asynchronous ECSCW 2020

Journal Papers, Exploratory Papers and Notes

Authors of accepted Journal papers, Exploratory papers and Notes are invited to upload a video presentation of their work. Papers and (optional) presentation will be available through an online platform for asynchronous viewing and commenting. We will publish a full list of accepted papers on the conference website in the coming weeks.

Details about accessing online paper presentations will be emailed to all registered participants.

Posters

Poster authors are invited to prepare their posters as PDF files and accompany them with audio narration files. The poster authors will post their files using Padlet. The platform will allow for asynchronous viewing and commenting on the posters, with poster authors responding to comments. Online poster presentations will be available for viewing throughout the conference. Poster authors are also invited to participate in the ECSCW Madness on Monday to preview their research.

Details about accessing online posters will be emailed to all registered participants.

Open Space

The digital FLAKE can be used by all ECSCW participants during the entire conference. The visualization is done with the help of Padlet. Detailed information about the different socio-ecological topics, the FLAKE as a method and the use of the Padlet will be presented in the exhibition itself via text and video.
